Alexandria, VA 22313-1450

Sir:

After an initial telephone interview to arrange for a formal telephone interview, a telephone interview was conducted with the Examiner regarding this application on September 7, 2006.

The **Interview Summary** provided by the Examiner sets forth the substance of that interview, i.e., the Examiner was questioned as to whether the "microcracks in a pattern of branching lines" avoided the rejection under 35 USC §112.

The Examiner said that it was believed that the language did avoid the rejection.

It is believed that no petition or fee is required. However, if the USPTO deems otherwise, Applicant hereby petitions for any extension of time which may be required to maintain the pendency of this case, and any required fee, except for the Issue Fee, for such extension is to be charged to Deposit Account No. 19-4880.

Respectfully submitted,
